

Use Case Prioritization Based on Business Impact

Focus	Questions	Begin to Draft Your Narrative
<div>Business Problem / Opportunity</div> <div></div>	<ul style="list-style-type: none">What business problem, pain point, or opportunity are we addressing?Which stakeholders are most impacted?What evidence (data) shows this is worth solving now?What's at stake if we do not address it?	
<div>Potential AI-Enabled HR Solutions</div> <div></div>	<ul style="list-style-type: none">What AI-enabled HR capabilities could address this issue most effectively?Why do we believe this is the right solution to address the problem, pain point, or opportunity?What data support this belief?	
<div>Business Impact</div> <div></div>	<ul style="list-style-type: none">What business metrics or organizational outcomes (e.g., revenue, efficiency, etc.) would the solution impact the most?What specific return on investment (ROI) is estimated for these areas?When would the ROI be achieved?	
<div>Execution Feability</div> <div></div>	<ul style="list-style-type: none">What resources are required (e.g., financial, people, partnerships, etc)?What resource gaps would we first need to fill to implement the solution?What are the risks of executing the solution? How will we manage the risks?	
<div>Potential Next Steps</div> <div></div>
